

PRIMEGLO™

Premium Nutrition
for Mature Horses

81578AAA24

PRIMEGLO is an Industry First, with its 2X concentrated formula and 2-4 lb daily feeding rate. PRIMEGLO was designed specifically to meet the needs of typical trail and light performance horses and promote shiny coats and strong hooves without overdoing the caloric intake. PRIMEGLO is an ultra-premium protein-vitamin-mineral fortified, pelleted horse feed which provides concentrated nutrients from stabilized rice bran, Soy Shine™, and Omega Flax™ and digestible fibers. The economical 2-4 lb daily feeding rate allows nutrient needs to be met without overdoing caloric intake, and without the need for additional nutritional supplementation.

FEATURES/BENEFITS

Stabilized rice bran and Soy Shine – Concentrated, highly digestible energy sources

Omega Flax – Rich source of Omega 3 essential fatty acids

Alfalfa Meal – Can lower the chances of ulcer development

Contains GROSTRONG® Minerals – Ensures horses receive needed major and trace minerals, vitamins, and electrolytes in correct amounts and ratios

Contains Zinpro 4-Plex®* complexed trace minerals– More readily available compared to inorganic minerals, which may be crucial to stressed horses

CitriStim® – May favorably impact the gut microbial population

Contains direct fed microbials – Enables more efficient metabolism of nutrients from the entire ration

Contains Prospanse® yeast – Enhanced feed palatability, digestibility, and hindgut fermentation.

Provides natural-source vitamin E – Vital to immune system function and protects body tissues from oxidative damage; more bio-available than synthetic vitamin E

Soft, 5/16" Pellets – Easy for horses to consume; less feed waste

GUARANTEED ANALYSIS

Crude Protein, min.	14%	Copper (Cu), min.	80 ppm
Lysine, min.	0.65%	Selenium (Se), min.	1.2 ppm
Crude Fat, min.	8%	Zinc (Zn), min.	350 ppm
Crude Fiber, max.	22%	Vitamin A, min.	15,000 IU/lb
Calcium (Ca), min./max.	1.25-1.75%	Vitamin D3, min.	1,500 IU/lb
Phosphorus (P), min.	0.6%	Vitamin E, min.	334 IU/lb
Salt (NaCl), min./max.	1.75-2.25%		

Feed 2-4 lb of PRIMEGLO daily to the average-sized horse (900-1,200 lb); refer to the table on the opposite side for specific feeding rates based on usage. Feed along with good-quality forage free of dust and mold. Provide fresh, clean water and a free-choice GROSTRONG Minerals for Horses product according to feeding recommendations.

PRIMEGLO™

Recommended Daily Intake

Pounds per 100 lb of Body Weight

Class of Mature Horse	PRIMEGLO	Good-Quality Hay
Maintenance	0.2-0.3	2.0-3.0
Light Work	0.3-0.4	2.5-3.5
Moderate or Heavy Work	0.3-0.4*	2.5-3.5

*May require extra energy from HEALTHY GLO or MOORGLO

Do not exceed feeding recommendations.

Refer to the product label for complete feeding instructions.

GLO for LIFESM products from ADM Alliance Nutrition[®] are ultra-premium horse feeds and supplements formulated free of corn starch, grain products**, and fillers. Only high-quality ingredients are used in GLO for LIFE products. The energy in these feeds is provided from stabilized rice bran, Soy Shine, and Omega Flax along with highly digestible fibers. The GLO for LIFE products were created to foster a healthy nutritional program for horses . . . one that will enable horses to look and feel good . . . *We're going against the grain . . . For the horse.*

In addition to PRIMEGLO, other GLO for LIFE products include:

JUNIORGLO[™] – Formulated specifically for safe, rapid growth of foals and growing horses; typically fed to horses three years old and younger; also makes an excellent broodmare feed.

SENIORGLO[®] – Created especially to meet the unique nutritional needs of older horses, this product's soft, large pellets are highly palatable making it easy for seniors to obtain needed nutrients. In addition to senior horses, it is recommended for active horses four years of age and older, horses at moderate to heavy work, broodmares, and stallions.

POWERGLO[®] – Provides the perfect combination of vegetable fats, digestible fibers and non-structural carbohydrates to maximize power and stamina needed to fuel barrel, race, and elite performance horses aged four and older.

MOORGLO[®] – A high-energy, limited starch supplement in a very palatable pellet, formulated with the three best fat sources for horses; it is used to replace some or all of the grain in typical horse rations.

HEALTHY GLO[™] – A premium stabilized rice bran product with Omega Flax, calcium, and natural-source vitamin E for use in rations when additional energy is beneficial; highly palatable and available in meal (25% fat) and nugget (20% fat) form.
